HONORS DAY

HONORS DAY is observed annually as an occasion upon which the University of Illinois gives public recognition to those students who excel in scholarship.

The University Senate, in establishing Honors Day, provided that "announcement shall be made of the names of undergraduate students who have distinguished themselves in scholarship during the two previous semesters; with the exception that in the case of freshmen and the first resident year of transfer students the honors award is to be based upon the grades for one semester only."

The students whose names appear in this program are in two categories: those who have won recognition by having qualified for the Dean's List for two semesters with the exceptions noted above, thus winning honors recognition, and those who have qualified for University Honors (Bronze Tablet).

The general Senate rules for recognition of honors students and the rules of procedure by which such students are selected appear on the last pages of this program.

UNIVERSITY HONORS (BRONZE TABLET)

The following students were awarded University Honors in February, 1967, or are to be awarded University Honors in June, 1967. As a general rule, they have ranked in the upper three per cent of all the students in their college in their cumulative grade-point average based on all credits earned at the University. Annually these names are inscribed on the Bronze Tablet which hangs permanently in the south corridor of the University Library. Other information on eligibility may be found on page 75 of this program. An asterisk appears beside the names of those students who have performed successfully as Edmund J. James Scholars.

GENERAL SENATE RULES FOR RECOGNITION OF HONOR STUDENTS

HONORS DAY RECOGNITION

In the spring of each year, the University holds a convocation of students and members of the faculty, with an address by a distinguished speaker, to give public recognition to its superior students. The printed program is designated the Honors Day Book and contains the names of all students receiving University recognition, as well as the names of the current recipients of prizes and awards for undergraduates. Also listed are students currently elected to college scholastic honorary societies.

Students whose names are printed in the Honors Day Book as receiving University recognition are those who have been on the Dean's List (see below) of their college for all semesters in which they were enrolled in the University since the last Honors Day Convocation. This recognition is recorded on the Student's University transcript as "Honors Day Recognition (year)."

UNIVERSITY HONORS PROGRAMS

Successful performance for one year as an Edmund J. James Scholar is recognized by the University Faculty Honors Council, Urbana. This recognition is made by an appropriate typographical sign beside the student's name in the Honors Day Book, and is recorded on the student's University transcript as "Edmund J. James Scholar (year)."

UNIVERSITY HONORS: THE BRONZE TABLET

Sustained academic achievement is recognized by inscribing the student's name on the Bronze Tablet which hangs on the walls of the main Library. To be eligible, a student must:

1. Have at least a 4.5 cumulative grade average for all work taken at the University through the semester prior to his graduation, excluding grades in required service courses in physical education.
2. Rank, on the basis of his cumulative average, in the top three per cent of the students in his college who will graduate when he does.

If the student is a transfer, he must:

1. Have earned forty or more semester hours at the University of Illinois prior to the semester of his graduation.
2. Have a University of Illinois cumulative average and a total cumulative average as high as the lowest one listed for eligible students in his college who have completed all of their work at the University of Illinois.

THE DEAN'S LIST

The name of every full-time student (as defined under "Rules") who has achieved a grade average of 4.0 or better for a given semester is placed on a list prepared for the dean of his college. This list is publicized within the University and is sent to the Office of Public Information for distribution to news agencies throughout the state. Names of James Scholars are preceded by an appropriate typographical sign.

HONORS DAY RULES OF PROCEDURE

(1) Averages are computed to three decimal places by the Office of Admissions and Records. Grades considered for honors are those earned in semesters of residence as follows: (a) second semester, previous year; (b) first semester, current year; (c) Bronze Tablet candidates are based upon all semesters prior to the one in which they graduate. Grades used in determining honors for students shall be those on file in the Office of Admissions and Records.

(2) New students (freshmen, transfer students, and readmitted students) are considered after one semester provided they are enrolled for only one semester since last Honors consideration.

(3) Only those students are considered who have earned in courses at least twelve hours of academic credit during each semester under consideration and have maintained a 4.0 or better semester grade-point average (excluding basic service courses in physical education).

(4) Unclassified students are not considered.

(5) Special examinations are disregarded in computing the status of students for honors.

(6) A first semester thesis course in which the grade is deferred is counted toward the minimum schedule requirement in rule 3 above, but is disregarded in computing the average.

(7) Minor changes may be made from time to time as occasion demands in these Rules of Procedure by the University Faculty Honors Council Committee on Honors (Urbana) without specific reference to the University Senate.
